

Is my prop allowed at the convention?

"NOTICE: Once outside of the convention space, the Kalahari asks that you conceal your prop gun. On their security cameras, they can't tell if its real or not, and they have a duty to check it out (and waste their time). Also, we wouldn't want outside law enforcement mistaking your prop for a real weapon. This applies to the hotel section of the resort as well. Your cooperation is appreciated!"
